

This is My ISAGENIX Weight Loss Story

BEFORE ISAGENIX CLEANSE

AFTER ISAGENIX CLEANSE

My name is David Rody and I am 50 years old. In January of 2005, I went to see my Doctor to go over some blood work he had me do. I was stunned to find out I was a Type II diabetic and my blood pressure was 218/125 - a "walking stroke" he called me. My weight was 268; triglycerides were 398 and cholesterol was 218. My doctor also informed me that I had a protein spill over in my urine and that was a sign of kidney damage. He told me that if it got worse in the future, I would have to consider dialysis.

My doctor also informed me that my BMI was 35.4. This was in the severely obese range. He told me that having a BMI of 35 brought other health risks to me, including Diabetes, high blood pressure, heart problems, sleep apnea and premature mortality. If I understood this correctly, premature mortality is the same as I am going to die soon!

Dieting was not in any of my future plans - so I did the sensible thing. "Ok Doctor, is there a pill I can take?" Oh yes! He found not only one pill but many - I had 7 scripts to fill. For the next while, with my daily pills, I existed a normal life for me. Soon I developed extreme pain in my calves when walking even a short distance.

It turned out I had severe blockage in both legs. The main artery in my right leg was 98% blocked and my left was 75%. I needed immediate surgery but only the right leg could be "cleaned out" as my BP was at stroke level before they could continue with the left leg "clean out". That procedure alone was \$19,000.

I began talking to God. What am I going to do now ? I have to lose weight, I have to diet. Should I do Atkins ? Oh God, what in the world am I going to do, please help me. This is when the miracle began - the answer to my prayers. Kelly, a long time friend, appeared at our home looking absolutely amazing. She had lost 28 pounds in one month using the Isagenix Cleansing System and her brother had lost 44 pounds in 6 weeks !

I signed up in Isagenix that night as did my wife and daughter. I started on the 9-Day Cleanse the next day. I lost 18 pounds and 18" in 9 days and my wife lost 12 pounds and 18". My daughter lost 28 pounds and 35" off her body. And my 72-year-old mother has lost 30 pounds in 6 weeks. My doctor cut down my BP meds and said "this is the best nutritional program I have ever seen and I want you to keep taking it.

In total, I lost 80 pounds in 5 months. My wife has dropped two dress sizes and looks and feels fantastic. The weight loss was only a side benefit. The real story is what happened to my health. My doctor had one word to say when he read over my new blood work - "miraculous". He said "I have never seen kidneys repair themselves this fast".

I can run now and workout on my NordicTrack. I sleep peacefully every night and wake up each day feeling great. My energy levels are so high, I don't ever remember feeling this good. I have shared my Isagenix story with other people and they too have joined Isagenix and begun their path to feeling wonderful.

Thank you God for blessing me and thank you Isagenix for saving my life.
